

Mobile Inspections – Tablet PC

Mobile Inspections is the only system on the market that utilizes the latest Tablet PC technology to integrate an electronic version of the actual required HUD HQS Inspection Checklist, providing quick data entry and a high acceptance rate among Inspectors. It has never been easier to perform Inspections in the field!

Go Paperless

- Eliminate paperwork
- Built-in HQS HUD Checklist 52580
- Simply fill it out on screen
- Accurate handwriting recognition
- Text Builder with common phrases

Save Time in the Field

- View a map showing the next inspection (mapping software required)
- Driving layout to easily view the next Inspection in route
- Handheld and PC all-in-one

Seamless Integration

- Download inspections scheduled for that day or week
- Repairs and notes are posted into Housing Pro
- Reschedule inspections in the field

Mobile Inspections

Inspection Checklist

Utilizing Microsoft Windows Tablet PC technology, Inspectors can now complete HQS inspections in the field. Mobile Inspections synchronizes with Housing Pro, allowing Inspectors to quickly download upcoming inspections and upload details of completed inspections, including repairs, notes, and reschedule dates.

Print Inspection Checklist

Print a completed HUD Inspection Checklist in the field directly from the tablet.

View Inspection Detail

View all inspection, tenant and owner detail on the inspection checklist header.

Easy Navigation

Quickly jump from room-to-room using the navigation button or scroll bar.
